Premium line

Custom industrial door solutions

VFD Series

Bridges the gap between standard commercial doors and high-performance doors with speed control via SmoothMove soft-start soft-stop technology

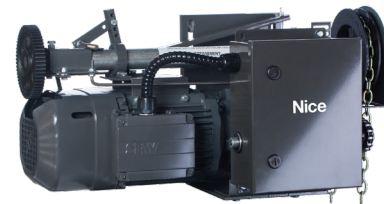

PRO-RDFI

The compact Direct Drive solution for sprung and unsprung sectional and rolling doors, and grilles with high duty cycle requirements. Guaranteed for up to 300,000 cycles

PRO-FDG

Fully-customizable for high-speed and/or high-cycle applications. 1,000,000 cycles is fair game with this high-performance operator

PRO-GHSA

High-performance direct drive operators tailor-made and designed for maximum efficiency. 1,000,000 cycles is fair game with this high-performance operator

PRO-PANEL

Floor-level wall mounted controls built in-house to your exact specifications. Our engineering team will help you achieve your desired circuit and meet even the most stringent specs

Support site

our technical support site at
<https://support.nice-na.com>

The screenshot shows a web browser window with the address bar displaying 'support.nice-na.com'. The website header features the 'Nice' logo on the left and 'Nice North America Support Center' on the right. Below the header, a breadcrumb trail reads 'Nice North America Support Center > Door'. A search bar is located on the right side of the page. The main content area displays a list of product categories under the heading 'Door': Residential, Light Duty, Medium Duty, Continuous Duty, Exclusive Division, Parts & Accessories, and General Brochures, Videos & Webinars. The footer contains the text 'Nice North America Support Center', 'Main site', and the 'Nice' logo.
