Nice

**Nice,  
a world without limits.**

Manufacturer of overhead door automation solutions

**Niceforyou.com**

**Nice North America  
Corporate Office**  
5919 Sea Otter Place, Suite 100  
Carlsbad, Ca 92010  
Tech: (760) 438 7000  
Sales: (760) 438 7000  
Toll Free: (800) 421 1587

**Nice North America  
Door Division**  
1380 St-Regis  
Dorval, Quebec, Canada  
H9P-2T5  
Tel: (514) 822 1116  
Toll Free: (877) 888 1116

**Phoenix Branch**  
1236 W. Southern Ave.  
Suite 104, Tempe, AZ USA  
85282  
Tel: (480) 557 0070  
Toll Free (888) 816 8584

**Commercial  
Door  
Operators**

# TROLLEY OPERATORS AND HORIZONTAL SLIDING DOOR OPERATORS

## PRO-LT

### Commercial Medium Duty Belt Drive Trolley Operator.

- High standing torque 1/2HP motor with thermal protection
- Heavy duty 4L V-belt and #41 roller chain and sprocket reductions
- Permanently lubricated ball bearings on all drive shaft
- 1" output shaft on final drive
- Adjustable friction clutch
- Emergency quick release disconnect for manual operation
- #410 roller chain drive and sprockets
- Magnetic solenoid brake (optional)
- UL325

## PRO-T

### Commercial / Industrial Continuous Duty Belt Drive Trolley Operator.

- Continuous duty industrial motor 1/2, 3/4 and 1HP
- Full feature logic board controls
- Heavy duty 5L V-belt and #41 roller chain and sprocket reduction
- Permanently lubricated ball bearings on all drive shafts
- 1" output shaft on final drive
- Full overload protection
- Adjustable friction clutch
- Sliding door application and hardware (PRO-SD)
- Magnetic solenoid brake standard on PRO-TB and PRO-SD
- #410 roller chain drive on 1/2HP PRO-T and PRO-TB models
- #41 roller chain drive on all PRO-SD; 3/4, 1HP PRO-T and PRO-TB
- Emergency quick release disconnect for manual operation
- UL325

## PRO-APT

### Commercial / Industrial Continuous Duty Belt Drive Apartment Trolley Operator.

- Continuous duty industrial motor 1/2 and 3/4HP
- Full feature logic boards controls
- Full overload protection
- Adjustable friction clutch
- Magnetic solenoid brake (optional PRO-APTb)
- 3/4" and 1" pillow block bearings on pulley and drive shaft
- Heavy duty trolley idler c/w 41B12 sprocket
- Low profile 9" clearance design for apartment applications
- Timer to close and time delay on reverse standard
- Red and Green lights feature (optional)
- Quick disconnect trolley carriage
- UL325

## PRO-GT // PRO-GSD

### Commercial / Industrial Continuous Duty Worm Gear Trolley Operator.

- Continuous duty industrial motor 1/2, 3/4, 1, 1.5 and 2HP
- Full feature logic board controls
- Primary reduction worm gear speed reducer in oil bath, secondary reduction #41 roller chain and sprockets
- Permanently lubricated ball bearings on all drive shaft
- 1" output shaft on final drive
- Full overload protection
- Adjustable in-line friction clutch
- Magnetic solenoid brake standard
- #41 roller chain drive
- Emergency quick release disconnect for manual operation
- Sliding door application and hardware (PRO-GSD)
- UL325

# JACKSHAFT OPERATORS

## PRO-1461J

### Limited duty jackshaft operator for high lift, vertical lift sectional doors.

- 1/2HP motor
- Absolute encoder
- Floor level disconnect
- Three button open/close/stop push button station
- Integrated LED light
- Dry contact and light terminals
- Optional battery backup
- Suitable for doors up to 14' and 850 lbs
- UL325

## PRO-LJ // PRO-LH // PRO-LHA

### Medium Duty belt drive jackshaft operator for High lift, vertical lift sectional doors and small rolling doors and grilles.

- High starting torque 1/2HP motor with thermal protection
- Heavy duty 4L V-belt and #41 roller chain and sprocket reductions
- Permanently lubricated ball bearings on all drive shafts
- 1" output shaft on final drive
- Adjustable friction clutch
- Left or right hand mounting (PRO-LH, PRO-LHA)
- Magnetic solenoid brake (std on PRO-LJ, PRO-LH, optional on PRO-LHA)
- Mechanical braking system (PRO-LHA)
- #41 roller chain drive and sprockets
- LJ incorporate a floor level disconnect, LH & LHA incorporate a floor level disconnect with emergency chain hoist, all with electrical cut-out switch
- UL325

## PRO-J // PRO-H // PRO-HBH

### Industrial, continuous duty belt drive jackshaft operator for high lift, vertical lift sectional doors, and rolling doors.

- Continuous duty industrial motor 1/2, 3/4 and 1HP
- Full feature logic boards controls
- Heavy duty 5L V-belt and #41 roller chain and sprocket reductions
- Permanently lubricated ball bearings on all drive shafts
- 1" output shaft on final drive
- Full overload protection
- Adjustable friction clutch
- Magnetic solenoid brake (std on PRO-HBH, optional for PRO-J, PRO-H)
- Mechanical braking system (PRO-J, PRO-H)
- #50 roller chain drive and sprockets
- J incorporates a floor level disconnect, H and HBH, incorporate a floor level disconnect with emergency chain hoist, all with electrical cut-out switch
- Left or right hand mounting (PRO-H, PRO-HBH)
- UL325

## PRO-GJ

### Medium duty gearhead jackshaft for small rolling doors, shutters and grilles.

- High starting torque 1/2HP motor with thermal protection
- Worm gear in oil bath reducer
- #41 roller chain drive and sprockets
- Floor level disconnect or emergency manual operation
- Left and right hand mounting (must specify)
- UL325

## PRO-GH // PRO-GHC

### Industrial, continuous duty worm gear drive jackshaft operator with chain hoist for large high lift, vertical lift sectional doors and rolling steel doors.

- Continuous duty industrial motor 1/2, 3/4, 1, 1.5, 2, 3 and 5HP (5HP available as PRO-GH only)
- Full feature logic board controls
- Primary drive worm gear speed reducer in oil bath
- Full overload protection
- Adjustable in-line friction clutch (Optional)
- Magnetic solenoid brake standard
- #50 roller chain drive and sprockets
- Reinforced frame and cast iron pillow block bearings (PRO-GHC)
- Emergency chain hoist with electrical cut-out switch for manual operation
- Universal left or right hand mounting.
- UL325

## PRO-EJ // PRO-EHJ

### Industrial, duty belt drive jackshaft operator for rolling doors and grilles. Built-in mechanical load sensing feature and emergency egress.

- Continuous duty industrial motor 1/2 and 3/4HP
- Permanently lubricated ball bearings on all drive shaft
- Built-in mechanical load sensing mechanism to eliminate jamming and damage to a locked rolling grille and door operator
- Emergency egress capability; floor level disconnect allows for opening a grille by manual operation or by door spring tension
- Emergency chain hoist with floor level disconnect and electrical cut-out manual operation (EHJ)
- #50 roller chain drive and sprockets
- Heavy duty 5L V-belt and #41 roller chain and sprocket reduction
- Full overload protection
- Adjustable friction clutch
- Mechanical braking system
- Magnetic solenoid brake (Optional)
- UL325
