**exclusive
division**

THE EXCLUSIVE DIVISION

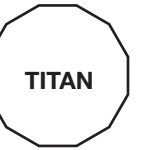

The exclusive division is Nice's custom shop, where mass production ends and build-to-order begins. With a focus on new product segments, customer partnerships and specific application-based Engineering, the exclusive division is what truly differentiates Nice from the pack.

TITAN DIRECT

The Titan Direct Series is Nice's industrial line of direct drive operations aimed at the mid to high performance and heavy industrial door markets.

- The best performing industrial door operator
- Compact Direct Drive design makes installation directly onto the shaft of a door or grille simple and fast
- Integrated door safety catch device and door cable monitor
- Touch screen control panel for easy set up
- Up to a Million cycles
- UL325 compliant

TITAN

The Titan Series is Nice's industrial line of operators aimed at the high performance and heavy industrial door markets.

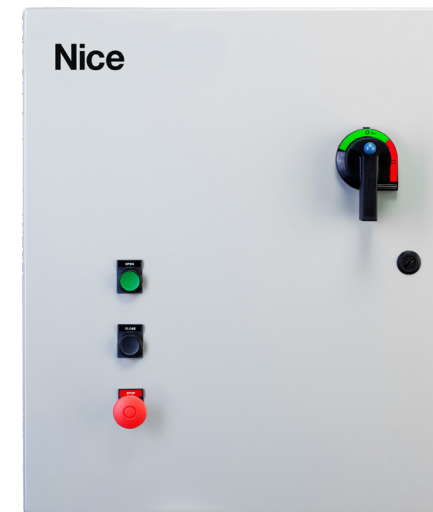

- The best performing industrial door operator
- Manufactured specifically for your application
- There is no door the Titan cannot open
- No springs? No problem
- Horsepower? The more the merrier
- Million cycle guarantee
- UL325 compliant

VFD SERIES

The VFD Series introduces Nice's commercial operator line to the world of soft-start/soft-stop and speed control.

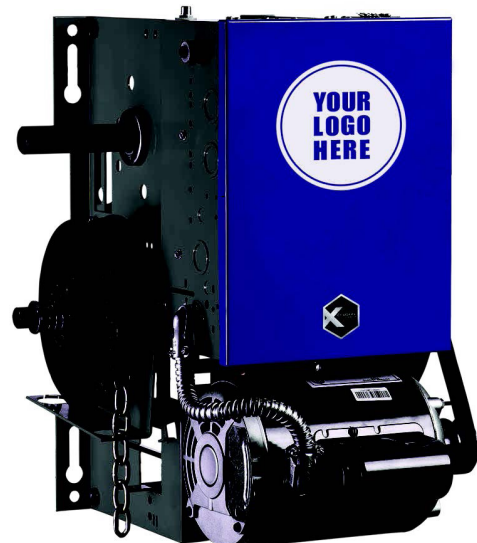

- Imagine a variable frequency drive in your standard commercial operator.
- Fully adjustable soft-start/soft-stop feature to ensure the smoothest operation
- Extends the life of the door and operator
- No need to fuss with floor-level control panel
- UL325 compliant

SPEC GURU

The Control Panel Series is Nice's line of commercial and industrial floor-level wall mounted controls.

- Wall-mounted panels built in-house to your exact specifications
- Ability to meet the most stringent specs; allow us to make your life easier
- Nice will help you achieve your desired circuit; we like things complicated
- Panels available to suit all environmental conditions
- Works with any type of commercial/industrial operators
- PLC, VFD, reversing starters, touch screen; micanan is the answer
- UL325 compliant

PRIVATE LABEL

The Private Label Series is Nice's marketing approach to commercial operators.

- Branding is everything
- Make the operator part of your marketing strategy
- Nice offers various private label solutions
- Company logo on the control box
- Company color powder coated on your operator
- UL325 compliant

TAILORED ENGINEERING

The Tailor-Made Series is Nice's co-development program.

- Bring your concept to life
- Have you designed the perfect machine? We can build it
- Do you have a great idea? We'll help you design it
- Would you like our machine modified to your specs? We can do it
- Combine your field expertise with our engineering and manufacturing capabilities
- Your design will belong entirely to you
- UL325 compliant
